

## Final Documentation required for Licensure of Completed Construction Projects

Completed projects can not be inspected for Final Licensing Inspection without **copies** of the appropriate documentation listed below completed and **furnished in a notebook**, at the Final Construction Inspection. Supply in the front of the notebook, a **copy of this form filled in with the dates of the certifications**. Several of this items may not apply to your project because this form is for all types of facilities. Contact Health Facilities Construction for Questions (803) 545-4663.
